	Latin	History	French	Economics	
	Physics	History of Art	History	English Literature	
	Politics	Physical Education	Music	Further Mathematics	
	Extended Project Qualification	Physics	Physics	Politics	Geography
		Spanish	Spanish	Extended Project Qualification	Religious Studies
	Extended Project Qualification	Extended Project Qualification	Extended Project Qualification		

In general, students should select one subject from each of four different subject columns.

Further Mathematics must only be studied in addition to four other subjects.
(One of which must be Mathematics.)

The Extended Project Qualification (EPQ) may be selected with any 3 or 4 valid subject combinations.

You should seek advice from the department if you are considering studying both Business and Economics.
